## Orthoteers Clinical Examination Course Friday 1<sup>st</sup> October 2004

This course is the fifth of a series of courses run by the Orthoteers group, extending the educational role of the existing website ([www.orthoteers.co.uk](http://www.orthoteers.co.uk)).

This is an intensive course designed to offer trainees a more hands on approach to clinical examination. There will be a high examiner to delegate ratio ensuring delegates have the opportunity to discuss the nuances of physical examination in a small group basis. The course is designed to provide you with an overall system for examination of each musculoskeletal system which is essential for everyday clinical practice and orthopaedic examinations. There will be ample opportunities to discuss examination styles and approaches throughout the course on both a formal and informal basis.

This course is continually oversubscribed and we recommend early application to avoid disappointment as places are on a first come first served basis.

This course is part of the ongoing commitment of Orthoteers to support orthopaedic training and is an extension of the Orthoteers educational resource.

### Format

- **Limited to 18 delegates only**
- **Small groups of 4 - for one-to-one teaching**
- **Taught by Fellowship Examiners, Consultants and post-fellowship trainees**
- **Patients and interactive teaching material**
- **Free Orthoteers Booklet for all delegates as pre-course reading material.**

# ORTHOTEERS
